

## SAFETY COMPONENTS First Responders 911 Foundation

*“Supporting Those Who Protect Us”*

July 2022

Even with NFFF's Program, Everyone Goes Home®, approximately 96 families lost loved ones in line-of-duty deaths in 2021. The National Fallen Firefighters Foundation is a charity that we support through our foundation. Over the past 20 years over \$1,150,000 has been raised. With your support, the NFFF is able to help many families of fallen firefighters from around the country.

Twenty-One years ago, following the tragic events of September 11, 2001, we began the Safety Components First Responders 911 Foundation and held our 1<sup>st</sup> First Responders 911 Charity Golf Classic in October of 2002. It is our hope to continue supporting these charitable organizations through the spirit of golf.

Our annual charity golf tournament is scheduled **November 6 & 7** at the Thornblade Club in Greenville, SC.

Enclosed is our response sheet with the different levels of support for this tournament. We would greatly appreciate any level of participation that you may be willing to provide, either as a team sponsor or hole sponsor. We also welcome any items or contributions for our silent auction which is a vital part of our event.

We have also enclosed **Hotel Information**, so please book your rooms as soon as possible. That will allow us time to expand our block if necessary before the **cut-off date of October 14, 2022 before 5:00 PM.**

Your help in “Supporting Those Who Protect Us” is greatly appreciated. We are hopeful that you can continue your level of support and would welcome any expanded level of participation.

Sincerely,

Joey K. Underwood
